SENIOR CARE SUPPORT

SENIOR CARE SUPPORT PROGRAM

The legacy of our industry is America's fastest-growing population with nearly 20% being seniors, aged 65+, many suffering from one or more chronic conditions.

WE'RE HERE TO HELP YOU.

COPAYS & PRESCRIPTIONS

Price Legacy Fund grants can cover copays not covered by Medicare, including medical, health, vision, and hearing, as well as prescriptions.

MEDICARE

Our advocates help navigate Medicare and ensure you choose the plan that will best provide the care you deserve with ease and confidence.

SHORT-TERM HOME CARE

We provide support with emergent short-term home healthcare or respite care related to unexpected medical circumstances and needs.

EDUCATION & RESOURCES

Our healthcare advocates provide education and resources for senior health, wellness, preventative, and end-of-life care — specifically tailored to the legacy music industry community.

SENIOR SERVICES FOR 65+

Services through our Senior Care Support program are available to any person aged 65 and older who has worked in the music industry for three or more years. Spouses and life partners of qualifying individuals may also be eligible.

Lauren Daigle's *The Price Fund* provides seed money for *The Price Legacy Fund* at Music Health Alliance, and — along with an anonymous donor in memory of Frank Dycus — addresses critical healthcare needs for senior music industry veterans and legacy makers — because no one should have to feel alone in a health crisis.
